Rashid Jamal

SENIOR IT OPERATIONS ENGINEER

+971 56 717 0775 | rashid@ibnjamaal.me | linkedin.com/in/IbnJamaal | ibnjamaal.me | Dubai, United Arab Emirates

PROFESSIONAL SUMMARY

AI-enabled automation builder with 15+ years of enterprise technology experience. Specializes in bridging IT operations with AI-assisted development, leveraging tools like Cursor, Claude, Llama.cpp, RAG pipelines, and n8n to build scalable workflows and local AI infrastructure. Proven track record in deploying hardened server environments, managing complex SaaS ecosystems, and enforcing strict identity and access controls. Combines deep operational discipline with rapid, practical product delivery using modern AI frameworks.

CORE COMPETENCIES

AI-Assisted Development | LLM & RAG Pipelines | Workflow Automation (n8n) | Python Scripting | Docker & Containerization | Local AI Infrastructure | Identity & Access Automation | Cloud & SaaS Administration

WORK EXPERIENCE

myZoi-Financial Inclusion Technologies LLC

Dec 2025 - Present

ITOps Engineer

Dubai, UAE

- Engineered automated SSO and SCIM provisioning with dynamic grouping across enterprise SaaS platforms to streamline user lifecycle workflows and enforce strict role-based access control (RBAC).
- Administered enterprise AI tooling governance for Claude and Cursor AI, managing access, licensing, and security compliance for organization-wide adoption.
- Deployed and maintained cloud-native infrastructure including AWS, GitHub, ArgoCD, and Atlassian Cloud, ensuring high availability and secure integration of development tools.
- Orchestrated end-to-end technical support and AV execution for company-wide town halls and hybrid sessions, ensuring seamless communication across distributed teams.

Talabat

Oct 2021 - Dec 2025

Sr. IT Systems Administrator II

Dubai, UAE

- Managed end-to-end device management and endpoint security for enterprise hardware across regional offices using Jamf Pro, Microsoft Intune, and Google Workspace MDM.
- Deployed and monitored endpoint threat detection tools (SentinelOne, ESET, ForcePoint DLP) for security compliance and rapid incident remediation.
- Conducted operational data analysis and performance reporting using Looker and Power BI to optimize ITSM and ITAM processes and reduce operational overhead.
- Provided high-priority white-glove technical assistance to the C-Suite and regional executive leadership under strict SLAs, ensuring business continuity.

Dreamz World Travel and Tourism

Mar 2015 - Feb 2020

IT Support Specialist

Jeddah, KSA

- Provided tiered technical support for local and remote teams; managed OS deployments, hardware maintenance, and network, AD, NAS, and NVR infrastructure.

PROJECTS

Local AI Infrastructure and RAG Engines

Deployed a hardened dual-boot Linux server environment featuring TPM hardware-backed encryption, Secure Boot, custom kernel memory allocations, and network access controls aligned with NIST and PCI-DSS standards.

Tech: Ubuntu Server, Docker Compose, Llama.cpp, RAG Pipelines, Hermes/OpenClaw Agents, n8n

Freelance Web Design & Development

Designed and built websites for clients including WordPress setup, customization, landing pages, and responsive front-ends. Managed end-to-end site delivery including domains, DNS, SSL, and hosting.

Tech: WordPress, HTML/CSS, PHP, JavaScript, DNS/SSL Management

EDUCATION

Master of Science (M.Sc.) in Data Science 2023 - 2024

College De Paris

Dubai, UAE (Remote)

SKILLS

AI & Automation: Llama.cpp, RAG Pipelines, Hermes/OpenClaw Agents, n8n, Cursor AI, Claude AI, ComfyUI (Learning), HuggingFace (Learning)

Development & Scripting: Python (Pandas, NumPy), SQL, Shell Scripting, HTML/CSS, PHP, JavaScript

Infrastructure & Cloud: Docker, Docker Compose, AWS, GitHub, ArgoCD, Ubuntu Server, Debian

Identity & Security: Entra ID (Azure AD), SCIM, SSO, RBAC, Zero-Trust, Jamf Pro, Microsoft Intune

Languages: Arabic (Fluent), English (Fluent), Urdu/Hindi (Fluent Speaking)
